LEAVING LOS ALAMOS

People There Panic Stricken Over the Earthquake Shocks.

HAVOC IN THE HILLS

About Lompoo Great Landslides Sent Huge Boulders Thundering Down the Valley and Strange Noises Are Heard.

Los Alamos, Cal., Aug. 1.—Although no more severe earthquake shocks were experienced here since 7:30 o'clock Thursday night, the people are still panic-stricken. Many of those not already fled from their homes are prepared to leave in case the disturbances continue.

Parties from Lompoo and outlying districts have reached Los Alamos with stories of havoc in the hills. Great landslides carrying down hundreds of tons of earth occurred near the Hoover ranch. The road from Lompoo is buried 50 feet. They say as far as the eye can reach from this grade to that there are spots on the mountain side indicating where huge boulders were sent thundering down the valleys.

A mountain farmer reports a destroying landslide in Drum canyon. The hills seemed charged with noises, which he described as the most terrifying sounds he ever heard.

The oil wells around the town of Los Alamos seem not to have suffered. Since the beginning of the earthquake shocks the temperature has been most oppressive, as much heat apparently coming from the earth as from the sun, which for most part of the time has been shining brightly.

SMITH RETURNS.

He Is Immediately Retired on the Order of the President.

San Francisco, Aug. 1.—General Jacob Smith arrived here today from Manila on transport Thomas. General Smith positively declined to say anything for publication and would not even allow reporters to approach him. He said he did not care to subject himself to further criticism.

Major Davol delivered General Smith's order of retirement to him on board the ship.

General Smith on landing went to the Occidental hotel and denied himself to all visitors.

General Smith's order for retirement was made by President Roosevelt after a review of the courtmartial trial of General Smith for his order to Walter to kill and burn.

SHIPPED TO CUBA.

Machinery of a Louisiana Sugar Mill to Be Put Up There.

New Orleans, Aug. 1.—Considerable interest is taken here in the sale of the Ashton plantation. It is one of the best places in the vicinity of New Orleans and has been a large producer of sugar. The property was sold for \$63,000, and the purchasers announce all the modern machinery for sugar making will be taken down and shipped to Cuba to be reinstalled there.

The purchasers declined to say why they had decided to abandon sugar cultivation in Louisiana, but their plans are taken to indicate the belief that ultimately Cuba will be given all the protection she asks, or the island will be annexed, and in either of these events it will be cheaper to raise sugar in Cuba than in Louisiana.

Two More Robbers Caught.

El Paso, Tex., Aug. 1.—Two more of the robbers who held up a Mexican Central train and secured \$53,000 from the Wells-Fargo express car have been captured at Gomez, Palacio and nearly \$15,000 has been recovered. The first robber was identified as "Bill" Taylor who held up a Santa Fe train at Coleman, Tex., and killed two men. He was sentenced to death for that crime, but escaped to Mexico.

Big Judgment Vacated.

New York, Aug. 1.—Judgment for \$282,639, rendered by default last Friday in favor of John L. Reed against Riley A. Boggs of San Francisco, vice president of a mining company, has been vacated by Judge Dickey of the Kings county court. The judgment was for claims alleged to be due on the sale of stock.

Japan May Exclude Chinese.

New York, Aug. 1.—Governor Goto of the province of Formosa, Japan, has visited Ellis island to study American methods of excluding Chinese immigrants. Japan is said to be preparing to adopt an exclusion act, and Governor Goto is gathering data as to the manner in which this country has carried out the system of keeping Chinese from our ports.

Automobiles Excluded from Park.

Omaha, Aug. 1.—By a vote of 3 to 2 the park commissioners have decided that automobiles shall be excluded from the parks and boulevards of Omaha. The fact that children are en-

dangered in the parks is one reason assigned, but the principal one is the number of accidents caused by runaway horses.

Labor Candidate Elected.

London, Aug. 1.—D. E. Shackleton, member of the Labor party, has been elected to the house of commons, without opposition, to fill the vacancy in the seat for Clithere division of Lancashire, caused by the elevation to the peerage of Sir Ughtred James Kay Shuttleworth, who was a Liberal.

COMMITTED FOR TRIAL.

Colonel Lynch Will Be Arraigned on the Charge of High Treason.

London, Aug. 2.—Colonel Arthur Lynch, the National member of parliament who is accused of high treason during the Boer war, was taken to Bow street police court today and committed for trial.

Before court committed him for trial Colonel Lynch made a long statement, in which he said he had gone to South Africa under contract with the Paris journal and had not expected to stay there more than two months. He said he had arranged to serve the Century Magazine, Collier's Weekly, and several other American publications. He denied he saw Dr. Leyds, the Boer agent, before starting and declared he had no mission from Leyds to the Transvaal. Before going to the court Colonel Lynch was visited in his prison cell by W. H. Redmond and other Nationalist leaders.

ANOTHER NEW PLAN.

Southern Pacific Will Control Cromwell Line from New Orleans.

New York, Aug. 1.—Another change has been made by the Southern Pacific in its new plan for handling ocean traffic between New York, New Orleans and Galveston for all through traffic. It is now learned that the Cromwell line, distinct from the Morgan line, has been placed under the management of the Southern Pacific; the local agency and offices have been abolished and the three vessels of the line will hereafter sail from the Morgan line pier semi-weekly. Whether the Cromwell line will continue as a separate corporation or will be formally taken over by the Southern Pacific is unknown.

The Morgan line's arrangement for its through traffic will take effect at once with the sailing of El Norte for Galveston. At the same time the Comus will be dispatched from New Orleans.

BREAK DOWN HEADGATES.

Farmers Forcefully Turn Loose Water to Save Their Crops.

Denver, Aug. 1.—Superintendent of Irrigation Armstrong has just received a report from Commissioner Banning of Water district No. 2 that 20 farmers, fully armed, marched to the headgates of the Fulton ditch, and breaking down the headgate allowed an immense amount of water to flow into the ditch, thus saving their crops.

When the gatekeeper tried to interfere with them, they threatened him with death.

Commissioner Banning reports he was unable to learn the names of a single person engaged in the attack.

The headgate of the Fulton ditch is ten miles north of Denver on the Platte above Henderson.

Another Case of Plague.

Austin, Aug. 1.—State Health Officer Tabor has been advised by Surgeon General Wyman of another case of bubonic plague at San Francisco, which resulted fatally. He also advised of one fatal case of yellow fever at Eiberra, Cuba. Also that yellow fever is raging in the southern part of Mexico. Rigid steps will be taken by Dr. Tabor to keep the disease out of Texas.

Six New Instructors.

Austin, Aug. 1.—President Houston of the Agricultural and Mechanical college has returned from the north and east where he visited the principal institutions. He says he will have about six new instructors in the college this year from some of the best institutions of the country.

The King Improves.

Cowes, Aug. 1.—The king continues to improve. The royal yacht left for a cruise to the eastward. His majesty sat late on the deck Thursday evening enjoying the minstrel performance given by the yacht's crew. The prince and princess of Wales have started for London.

Quiet at Shenandoah.

Shenandoah, Pa., Aug. 1.—A more quiet town than Shenandoah it would be difficult to imagine. Peace reigns everywhere. The only thing now attracting attention in this vicinity is the camps of troops who have settled down for a period of enjoyable camp life.

Sixty-Seven Bodies Recovered.

Melbourne, Victoria, Aug. 1.—So far 67 bodies have been recovered from Mount Kinblea colliery at Wollongong.

where the explosion occurred Thursday. The work of rescue is much hampered by afterdamp in the mines.

Crazy from Overheating.

Austin, Aug. 1.—Tom Rooney, a well known young man of Austin has been placed in the insane asylum. He became crazy from being overheated. He imagined he was a murderer.

Killed by Mosquito Bite.

New York, Aug. 1.—According to a report to the board of health, the recent death of Alfred Cronberger, 14 months old, was due to the bite of a mosquito, which caused erysipales.

Death of Mrs. Wilmot.

New York, Aug. 1.—News has been received here of the death in Cylon of Mrs. Colville B. Wilmot, granddaughter of Cyrus W. Field.

Iowa Railroad Assessment Increased. Des Moines, Aug. 1.—The executive council has increased the railroad assessment of Iowa \$4,041,556, making a total of \$51,112,814.

SATURDAY, AUGUST 2, 1902

Emperor William of Germany
and our own Wm. J. Bryan are
agreed that J. P. Morgan is a dan-
gerous man with his combinations
and schemes. Both argue from
the standpoint that the trusts are
organized to fleece all the poor peo-
ple who are not in the trusts.
Morgan claims to believe that there
are economies that can be effected
by organization which will enable
the combines to make money
and at the same time benefit the
people by cheapening products.

The republican State executive
committee, in session at Waco yes-
terday, decided to make a show of
fight for some of the elective offices
in Texas, in addition to their he-
roic struggle among themselves for
the general government pie. A res-
olution was passed favoring the
nomination of a full state ticket,
candidates for congress, and full
county tickets in as many coun-
ties as as practicable.

A Texas negro the other day
killed a woman over 15 cents.
That's cheap enough to have oc-
curred in Houston.—Dallas Times

President Houston Returned.

Austin, Texas, July 31.—Presi-
dent Houston of the Agricultural
and Mechanical college arrived in
town today after a six-weeks tour
of the North and East, where he
visited many agricultural and
mechanical colleges. He visited
Cornell and Harvard, with a view
of strengthening his faculty and
filling certain chairs which
have been made vacant by resig-
nations.

THE JEWETT REUNION

Of Ex-Confederate Veterans—Well En-
tertained by Jewett's Citizens—
Norman G. Kittrell Speaks.

Jewett, Tex., July 23.—Today
was the opening of the reunion of
U. C. V., R. S. Gould camp. Early
this morning the usual adjuncts to
such gatherings were in place and
ready for business.

The first item on the program
was the business meeting this af-
ternoon at 2 o'clock, at which the
names of the veterans were taken
and badges issued, after which the
D. C. Carrington camp of sons of
U. C. V., did likewise.

After the business meeting, mu-
sic and recitations were rendered
by the young people of Jewett.
The music is being furnished by
the Jewett band which is made up
altogether of home talent, and we
must say that the boys and Prof.
Lorraine deserve much credit for
their great success.

Jewett also has a dramatic com-
pany that deserves reward, in so
much that they are first-class ama-
teurs, not to be surpassed by any
in the state. They have a stage
erected and will play each night.
Tonight they will present "The
Little Brown Jug."

THURSDAY, JULY 24.

The morning dawned brightly,
with the prospects that there would
not even be a cloud to cast a shad-
ow over the occasion, still about 1
o'clock a nice shower fell, which
was not objectionable as the dust
had become very bad, and the rain
was sufficient to settle it. After a
short while the sky was again
clear, and the pleasures went on
without a hitch.

At 9:30 a. m. the procession
formed at the corner of Keeton,
Stell & Co's. and marched to the
grounds. At the head of the pro-
cession was the band; next the
sons of U. C. V., then the old ex-
confederates and lastly the dense
throng of visitors.

The address of welcome was de-
livered at 10 o'clock by Ed. L.
Evans, one of Jewett's most suc-
cessful business men.

The response for the old sol-
diers by Nat S. Johnson, of Buf-
falo, was framed very appropri-
ately and delivered by one for whom
we predict a grand future. After
the response Judge Norman G. Kit-
trell was introduced and held the
crowd spell bound for some time,

excepting when he would make
some remark or witticism that
would touch the old ex-confeder-
ates, and then you might as well
try to run water up hill as to keep
them quiet.

At 2 p. m. there was a meeting
of the Sons at which Attorney J.
M. Chatham, of Centreville, ren-
dered an oration which was equal
to anything of the occasion. After
which the young people delivered
a number of recitations and songs.

At night the dramatic company
played "The Little Heroine," and
the talent deserve much praise for
the rendition, especially the comic
parts.

FRESDAY, JULY 25.

Early this morning there began
to fall a slow rain, which has made
the last day of the reunion very
much of a flash, which will not
materially hurt the visitors, but
will save their pockets from being
emptied by the schemers. For we
know of some visiting ex-Confed-
erates who say that Jewett's people
are somewhat selfish. Keeling.

MICHIGAN DEMOCRATS.

They Nominate State Officers at Their
Convention at Detroit.

Detroit, August 1.—Michigan Dem-
ocrats at their state convention here
nominated the following ticket:
Governor—George H. Durand.
Lieutenant governor—John F. Bi-
ble.

Secretary of state—John Donovan
Treasurer—W. F. Davidson.
Auditor general—D. A. Hammond.
Attorney general—Wm. F. Knight.
Superintendent of public instruc-
tion—Prof. Woodbridge M. Ferris.
Commissioner of land office—C. F.
Watson.

The platform is devoted almost en-
tirely to state issues, the only men-
tion of national issues being an en-
dorsement of the election of United
States senators directly by the peo-
ple.

Judge Durand, who was nominated
for governor, filled a vacancy on the
supreme bench of the state during
the year 1892. He is generally cred-
ited with being a gold democrat at
heart, though not a bolter in 1896.
He was nominated on the fourth bal-
lot.

Texas Confederates Elect Officers.

Dallas, Aug. 1.—At the annual re-
union of the ex-Confederates of Texas,
which came to an end here Thursday,
the following officers were elected:
Major general—K. M. Van Zandt of
Fort Worth.

First brigadier—A. T. Gerard of
Huntsville.
Second brigadier—T. J. Largin of San
Antonio.

Third brigadier—Felix Robertson of
Waco.
Fourth brigadier—R. M. Henderson
of Sulphur Springs.

Fifth brigadier—M. D. Sellers of De-
catur.

Spirited and protracted debate fol-
lowed the introduction of a report by
the special committee appointed to
consider and submit rules for "the bet-
ter government of the Confederate
home at Austin." By unanimous con-
sent Capt. King, the superintendent of
the home, was permitted to make a
speech. After he had spoken the re-
port, with the exception of that clause
which recommends that the superin-
tendent be "a thoroughly qualified sur-
geon and physician," was adopted.
The veterans chose Sherman as the
place for holding the reunion next year.

Prisoner Fished Out.

Palestine, Tex., Aug. 1.—Constable
Conrad Perry Thursday arrested a ne-
gro under very peculiar conditions.
He was notified that a negro was beat-
ing a colored woman in the west part
of the city and hastened to the place.
The negro ran and the officer fired
a couple of shots at him, but it only
served to quicken his speed. The of-
ficer lost sight of his man, but fol-
lowed the trail. He came to a large
pond of water and looking over it
spied his man, all down under the
water except his nose. The officer
fished the negro out and landed him
in jail.

Puzzling Point Over School Bonds.

Austin, Tex., Aug. 1.—An interesting
question has arisen in the state board
of education as to whether or not the
board can sell bonds previously pur-
chased for the school fund. Some
parties have offered a handsome pre-
mium for an issue of bonds held by
the school fund. It is understood that
the attorney general has written an
opinion advising the board that it
has the power to dispose of the bonds.
The sale as yet has not been made.

Deficiency Grows.

Austin, Aug. 1.—The witness fees
deficiency continues to grow and
Thursday the total amount of the de-
ficiency certificates issued is \$19,838.75.
The present appropriation year has
but one more month to run, expiring
Aug. 31, and it is expected that by
that time the deficiency will have
reached \$28,000 or possibly \$30,000. The
examining fees appropriation has long
since been exhausted and the total de-
ficiency to date is \$17,146.55, and the
total will be not less than \$20,000.

Excessive Land Holders Warned.

South McAlester, I. T., August 1.—
United States District Attorney Wil-
kins has issued a public letter warn-
ing every Indian landholder that pro-
secutions will result if there are any
violations of the clause in the Indian
appropriation bill against excessive
holdings, which that bill fixes at 320
acres for each Indian and a like
amount for each member of his fam-
ily. Each offense is punishable with
a fine of \$100 and each day is deemed
a separate offense.

To Keep Tradition Alive.

New York, Aug. 1.—Several Hun-
garian business men, sent by that nation
will visit this city in the latter part
of August and will be entertained by
the Hungarians in New York. The ob-
ject of this mission is said to be to re-
mind Hungarians here of the battles
of the mother country in behalf of
liberty and to remind Hungarians they
ever should remain true to the tradi-
tion of their native land.

Refused to Vote More Bonds.

San Antonio, Tex., Aug. 1.—At an
election held Thursday on the proposi-
tion submitted to the taxpayers by the
city council to issue \$400,000 improve-
ment bonds for the purpose of extend-
ing the sewer system, paving addi-
tional streets and building additional
schoolhouses, the proposition was de-
feated by 581 majority. The negro and
German taxpayers, as a rule, voted
against it, and it is their vote that
killed the measure.

Prominent Mining Engineer Dead.

Monterey, Mex., Aug. 1.—Captain R.
L. Davies, a prominent mining en-
gineer in Mexico, was found dead in
the Dienten canon 30 miles from Mon-
terey. The supposition is that he fell
from the top of a cliff while at work
examining some prospects. Captain
Davies had been missing a week and
friends started a search for him, re-
sulting in the finding of his decom-
posed remains.

BRAZOS FALLING RAPIDLY.

Was in Banks at Some Places Last Night.

Reports from all points on the Brazos river late yesterday afternoon showed that the water is receding rapidly.

At Pitts Bridge it had run down four feet and was within banks in places. At Parker's lower store a fall of three feet was reported by R. H. Grant, who also spoke quite hopefully of the cotton, which he said was standing the flood well. At T. R. Batte's place in the lower bottom a fall of eight inches was reported by Mr. Mays, who also said the water was running down rapidly. The question is now one of the amount of damage done by the flood. Some believe that the cotton is practically ruined, while others believe it may make a part of a crop. A very few days will tell the tale after the water gets off the fields.

WELLBORN.

Wellborn, Texas, July 28.—We have had plenty of rain the past week, which is causing the river to overflow. We hope it won't ruin the crops.

Rev. Skinner held a meeting here last week which closed Friday night. It helps our town to hold such meetings in it and we hope he will hold another one next summer.

Misses Emma and Lee Royder are visiting relatives here.

Mr. Roger Williams and Mr. Moore were pleasant visitors here Sunday.

Miss Bennie Gandy, of Rock Prairie, visited Miss Laura Royder Friday and Saturday.

Little Julia Countryman, of Houston, is visiting Dottie Williams.

Mr. T. Farquhar, of Allen, was here Sunday.

Mrs. Anna McGinnis, of Temple, is visiting her grand parents, Mr. and Mrs. A. Hill, of this place.

Mr. George Price, of Franklin, was here Saturday on business.

THE FLOOD SUBSIDING

All Streams Falling and the Worst Seems Over,

RESUMING TRAFFIC.

Railroads Are Repairing Damages and Regular Schedules Will Be on in a Short Time—No Lives Were Lost at Quinlan.

Dallas, Aug. 1.—Rains have ceased, rivers are rapidly falling and railroad traffic is being resumed throughout the flooded districts of the state.

The damage to railroads will reach an enormous sum, counties have lost heavily on account of the destruction on bridges, the cotton and corn crops in low lands seriously damaged, several lives lost and many heads of stock drowned will bring the total damage of floods in the state near the million dollar mark.

The latest report from Quinlan is that no lives were lost in the flood Tuesday night, although several people had to stay in treetops and on houses until daylight on account of the rise in the Sabine river. One family is reported to have escaped the flood by knocking a hole in the roof and going out through the top of the house. The damage to stock and property will be great. The water was still over the Midland railroad track, and it will be several days before trains can go through on that road.

Messages from Mumford are to the effect that the water was still doing damage to the crops, being higher than at any time during the rains. On account of the high water the train to Hearne and Brazos Valley returned to Hearne without going to Stone City. Reliable parties from the upper bottom say that the situation there is much improved and the waters are fast receding.

The Brazos river at Bryan latest reports say is still falling slowly. Accurate measurements showed the water to be one foot higher than the 1900 rise and three feet one inch below the high water mark of 1899 at Pitts bridge there.

Reports of damage from the deluge continue to come in from Rockwall. Nearly all the county bridges are either washed away or badly damaged. Some of the creeks became raging rivers.

The Flood Shifted.

Dallas, Aug. 1.—The flood had shifted to eastern Texas, where small tributaries are causing the Saline river to go on the rampage.

At Kildare, Tex., the Pacific tracks are washed out and water is high. A large crew of workmen are on the ground and little trouble expected.

There is still some trouble on Texas Midland east of Dallas, the Pecos valley west, and on the Aransas Pass road in the southwest, but other roads are running irregularly.

Situation at Gonzales.

Gonzales, Tex., Aug. 1.—There is a big overflow of the San Marcos and Guadalupe rivers at this place. All the lowlands are covered with water. From Slayden a phone message stated that the river only lacked two feet of being as high as in 1900. The water is all over the bottom and some corn will be washed away. The Lockhart train was water bound Wednesday, the water being over the Plum Creek bridge. The Yoakum freight backed to Gonzales and received passengers, express and mail Thursday.

Farmers Heavy Losers.

Lyons, Tex., Aug. 1.—The Brazos bottom is all under water from J. W. Dallas' place to the mouth of the Tegu, in this county. Crops are consequently a total loss, but the farmers with their tenants have moved out to the hills, hence saved their stock. Boll weevils and worms are playing havoc with the cotton on uplands. Merchants have quit advancing, necessitating much destitution.

Washouts in Arkansas.

Memphis, August 1.—A Scimitar special from Camden, Ark., reports that no Cotton Belt trains have passed there since early Thursday night owing to a washout on the main line at that point. The dispatch also says that five miles of the Eldorado branch of the Iron Mountain is under water eight miles north of Camden and no trains can pass.

Storm in Indiana.

London, Ind., Aug. 1.—This section was visited by a heavy rain and wind storm Thursday evening. Charles Sunderling, 20 years of age, was killed by lightning. A farmer boy was electrocuted by leaning against a wire fence. Hundreds of acres of growing crops were damaged, barns and houses unroofed and considerable live stock destroyed.

About Peru the country is flooded. A bridge on the Lake Erie and Western railroad was washed out. William Jeffries was paralyzed by lightning and three other persons were hurt.

Women Charged with Assault.

Hattiesburg, Miss., Aug. 1.—Will Dantzler, a young negro, was hanged privately in the courthouse yard here for assault on Mrs. Ed Gardner, a respectable white woman, June 5.

NO FURTHER RIOTING

Presence of Troops Restore Quiet in Shenandoah Region.

NO MARTIAL LAW.

City and County Officers Will Remain in Control Unless There is More Rioting—Another Injunction Against the Miners.

Shenandoah, Aug. 1.—Twelve hundred state troops are encamped on a hill overlooking Shenandoah. Down in the town where rioters and policemen fought the bloody battle all is quiet, and the indications are that so long as the militia remains the peace of the community will not again be broken. The riot which caused the troops to be sent here came like a flash and was over almost as quickly as it had started, and since then there has not been a single case of violence reported. The tens of thousands of idle men and boys in this vicinity, who had been gathering in large numbers and marching from place to place, have not repeated their demonstrations, and the authorities consequently have little or nothing to do.

Contrary to popular belief, Shenandoah is not under martial law. The local authorities and the sheriff of the county have not relinquished control of the town or county, and they remain in as complete control of their respective affairs as they did before the troops reached here. The soldiers are merely camped on the outside of the town, and so long as the situation remains as it is at present there is no likelihood that the regimental companies will be scattered through the mining towns of Schuylkill county.

ANOTHER INJUNCTION.

Mine Workers Officials Restrained from Interfering With Coal Companies.

Charleston, W. Va., Aug. 1.—President Mitchell has been enjoined. A bill in equity was filed in the federal court here by the Chesapeake and Ohio Coal company, a New Jersey corporation which has its principal offices in the city of New York, in which fifty coal companies in the New river fields and the Chesapeake and Ohio railway company are interested. G. W. Purcell, W. B. Wilson, John Mitchell, J. W. Carroll, J. A. Richards and about 150 members of the United Mine Workers of America are made defendants.

The bill sets up that the complainant is engaged in selling coal and coke and has a contract for the output of the collieries made a party defendant and a contract with the defendant railroad company for the shipment of coal so purchased; that the coal is resold by complainant under contracts to manufacturing concerns, and to the United States government for fuel on naval vessels; that because of a strike which has existed since June 7 last, the coal companies have failed to live up to the contracts for deliveries of coal; that there exists a secret organization known as the United Mine Workers of America, of which John Mitchell is president and W. B. Wilson is secretary under the orders of which the men employed in the mines who are members of this organization have quit work and refuse to do their duties, and in addition to this assemble in marches and meetings and so conduct themselves as to intimidate employees of the various companies, thus preventing them going to the work which they desire to perform; and the said defendants occupy the tenement houses of the various companies and fail and refuse to vacate them at the request of the coal companies.

Judge Keller issued a temporary restraining order against all of those named in the order and all others associating or acting with them from in any way interfering with the management, operation or conduct of said mines by the owners of those operating them, either by menace, threats or any character of intimidation.

Leaving the Stricken Town.

Santa Maria, Cal., Aug. 1.—Another earthquake shock was felt here at 7:25 o'clock Thursday night. No damage was done.

Two families have arrived here from Los Alamos, and reported a reign of terror holds sway there, and that more families are preparing to leave.

Another Shock at Los Alamos.

Santa Barbara, Cal., Aug. 1.—Another severe earthquake shock was felt at Los Alamos at 7:30 o'clock Thursday night. It was almost as heavy as that of early Thursday morning. A slight shock was felt in this city at the same time.

Farmer Assassinated.

Karnes City, Tex., Aug. 1.—Willis Wilson, a farmer living four miles from this place, was assassinated between daylight and sunrise Thursday. Two parties suspected were jailed.

NEWS IN BRIEF.

Thomas O'Dell was killed by lightning while he was sitting in his doorway, four miles south of Crab Orchard, Mo.

Dennis Hodge was convicted at Texarkana, Ark., of killing fish in Clear lake with dynamite and fined \$50.

DOES OWN STOCK.

Ambassador Clayton Says He Has One Hundred Shares in Mexican Mine.

Washington, Aug. 1.—Ambassador Clayton has telegraphed the state department that a misunderstanding appears to exist as indicated by the press publications, touching the exact nature of his connection with the El Carmen Mining company, which was referred to in the senate debates last session.

The ambassador states that he does own 100 shares of mining stock in this company and that it is registered in his name. He accounts for the possession by pointing to his statement made to the department last March and asks that this be given publicity now.

According to the statement Mr. Clayton became trustee for an aged lady, a relative and an American citizen. She had inherited a considerable amount of El Carmen Mining company stock, and having no one to look after her interests in Mexico, she induced Mr. Clayton to represent her. But he could not become a director of the company, which was necessary for him to look after her property, unless he owed a block of stock, and this he acquired to the extent of 100 shares, the value of which is small. At the same time he notified his relative that by consenting to act as a director in the company he placed himself in a position where he could not serve her in a diplomatic capacity should the company become involved in that way.

Actress Prevents a Tragedy.

Guthrie, Okla., August 1.—Miss Bernice Montgomery, a Chicago actress who is spending her summer here, has suddenly become a heroine by preventing serious trouble near here while driving in the country with two young ladies of Guthrie. They came upon two farmers desperately quarreling, one of whom had assaulted the other, who in turn drew a revolver and threatened to kill his assailant. Miss Montgomery quickly leaped from the carriage, grabbed the revolver and compelled its owner to get in his wagon and drive on. The other fellow was determined on a fight, but she was again equal to the occasion by taking his blacksnake whip from the wagon and threatening to horsewhip him within two minutes unless he also drove toward home. Her argument was sufficient, the farmer obeying reluctantly.

Tracy Again Heard From.

Ellensburg, Wash., August 1.—From 10 o'clock Wednesday morning until 10 o'clock at night Harry Tracy was an unwelcome guest at the ranch of W. A. Sanders and S. J. McEldowney, six miles from Wenatchee, on the Columbia river. Tracy came out of the Cascades packing one horse, using another as a pack horse and leading a third in reserve. He carried a Winchester and two revolvers. He took dinner and supper at the ranch, having the men well covered with his rifle.

Kitchener Presented a Sword.

London, August 1.—Amid tremendous enthusiasm, Lord Kitchener was presented Thursday night with a sword of honor, the gift of Cape Town. Sir Joseph C. Dimsdale, lord mayor of London, made the presentation speech in the course of a South African dinner which was attended by many notable persons. When the enthusiasm had sufficiently subsided for Lord Kitchener to make himself heard, he modestly returned thanks for the gift and expressed the confident hope that in South Africa at any rate, the sword would not again be drawn from its scabbard.

Desertion on the Mayflower.

Oyster Bay, N. Y., Aug. 1.—Serious trouble has developed on the Mayflower, the president's official war-yacht. During the past few days nine desertions have occurred among the crew. A number of the crew said yesterday that not less than 70 men on board of the ship were awaiting a favorable opportunity after payday to take "French leave" of the vessel. Primarily the executive officer of the ship, Lieutenant W. W. Phelps, who, the men assert, is overbearing and tyrannical.

A Big Rice Farm.

Jennings, La., Aug. 1.—Several gentlemen of this place have just closed a deal for nearly 20,000 acres of land in Matagorda county, Texas, bordering on Trespalacios bay, with eight miles of coast line. All of this vast tract will be converted into a rice farm, and railroads and canals will be built at once by the company. This is the largest company organized for this purpose in recent times.

Two Mines Resume.

Seranton, Pa., Aug. 1.—The Oxford colliery of the People's Coal company and the Cayuga Colliery company of the Delaware, Lackawanna and Western railroad have resumed operations. The Oxford had between 120 and 130 men under ground. The Cayuga had 60 miners, all of them old employees. Crowds surrounded both collieries, but the city police and sheriff's deputies prevented any disorder.

Explosion in a Mine.

Sydney, N. S. W., Aug. 1.—An explosion resulting in heavy loss of life occurred at the Mount Kimba colliery at Wollongong, a port forty miles from here. Twenty-seven bodies have been recovered. The buildings at the mouth of the pit were wrecked. One hundred and forty-nine miners were rescued, but a hundred were still entombed. It is feared their release is hopeless. A portion of the colliery is on fire.

Hammond Plant Sold.

Chicago, Aug. 1.—The sale of the controlling interest of the G. H. Hammond company and the Hammond Packing company to Armour & Co., or individual members of the Armour firm, is now practically completed. The price for the property is not known, but the amount involved is close to \$5,000,000.

LEAVING LOS ALAMOS

People There Panic Stricken Over the Earthquake Shocks.

HAVOC IN THE HILLS

About Lompoo Great Landslides Sent Huge Boulders Thundering Down the Valley and Strange Noises Are Heard.

Los Alamos, Cal., Aug. 1.—Although no more severe earthquake shocks were experienced here since 7:30 o'clock Thursday night, the people are still panic-stricken. Many of those not already fled from their homes are prepared to leave in case the disturbances continue.

Parties from Lompoo and outlying districts have reached Los Alamos with stories of havoc in the hills. Great landslide carrying down hundreds of tons of earth occurred near the Hoover ranch. The road from Lompoo is buried 50 feet. They say as far as the eye can reach from this grade to that there are spots on the mountain side indicating where huge boulders were sent thundering down the valleys.

A mountain farmer reports a destroying landslide in Drum canyon. The hills seemed charged with noises, which he described as the most terrifying sounds he ever heard.

The oil wells around the town of Los Alamos seem not to have suffered. Since the beginning of the earthquake shocks the temperature has been most oppressive, as much heat apparently coming from the earth as from the sun, which for most part of the time has been shining brightly.

SMITH RETURNS.

He Is Immediately Retired on the Order of the President.

San Francisco, Aug. 1.—General Jacob Smith arrived here today from Manila on transport Thomas. General Smith positively declined to say anything for publication and would not even allow reporters to approach him. He said he did not care to subject himself to further criticism.

Major Davol delivered General Smith's order of retirement to him on board the ship.

General Smith on landing went to the Occidental hotel and denied himself to all visitors.

General Smith's order for retirement was made by President Roosevelt after a review of the court-martial trial of General Smith for his order to Walter to kill and burn.

SHIPPED TO CUBA.

Machinery of a Louisiana Sugar Mill to Be Put Up There.

New Orleans, Aug. 1.—Considerable interest is taken here in the sale of the Ashton plantation. It is one of the best places in the vicinity of New Orleans and has been a large producer of sugar. The property was sold for \$63,000, and the purchasers announce all the modern machinery for sugar making will be taken down and shipped to Cuba to be reinstalled there.

The purchasers declined to say why they had decided to abandon sugar cultivation in Louisiana, but their plans are taken to indicate the belief that ultimately Cuba will be given all the protection she asks, or the island will be annexed, and in either of these events it will be cheaper to raise sugar in Cuba than in Louisiana.

Two More Robbers Caught.

El Paso, Tex., Aug. 1.—Two more of the robbers who held up a Mexican Central train and secured \$53,000 from the Wells-Fargo express car have been captured at Gomez, Palacio and nearly \$15,000 has been recovered. The first robber was identified as "Bill" Taylor who held up a Santa Fe train at Coleman, Tex., and killed two men. He was sentenced to death for that crime, but escaped to Mexico.

The Judgment Vacated.

New York, Aug. 1.—Judgment for \$282,639, rendered by default last Friday in favor of John L. Reed against Riley A. Boggs of San Francisco, vice president of a mining company, has been vacated by Judge Dickey of the Kings county court. The judgment was for claims alleged to be due on the sale of stock.

Japan May Exclude Chinese.

New York, Aug. 1.—Governor Goto of the province of Formosa, Japan, has visited Ellis island to study American methods of excluding Chinese immigrants. Japan is said to be preparing to adopt an exclusion act, and Governor Goto is gathering data as to the manner in which this country has carried out the system of keeping Chinese out of our ports.

Automobiles Excluded from Parks.

Omaha, Aug. 1.—By a vote of 3 to 2 the park commissioners have decided that automobiles shall be excluded from the parks and boulevards of Omaha. The fact that children are en-

dangered in the parks is one reason assigned, but the principal one is the number of accidents caused by runaway horses.

Labor Candidate Elected.

London, Aug. 1.—D. E. Shackleton, member of the Labor party, has been elected to the house of commons, without opposition, to fill the vacancy in the seat for Clithere division of Lancashire, caused by the elevation to the peerage of Sir Ughtred James Kay Shuttleworth, who was a Liberal.

COMMITTED FOR TRIAL.

Colonel Lynch Will Be Arraigned on the Charge of High Treason.

London, Aug. 2.—Colonel Arthur Lynch, the National member of parliament who is accused of high treason during the Boer war, was taken to Row street police court today and committed for trial.

Before court committed him for trial Colonel Lynch made a long statement, in which he said he had gone to South Africa under contract with the Paris Journal and had not expected to stay there more than two months. He said he had arranged to serve the Century Magazine, Collier's Weekly, and several other American publications.

He denied he saw Dr. Leyds, the Boer agent, before starting and declared he had no mission from Leyds to the Transvaal. Before going to the court Colonel Lynch was visited in his prison cell by W. H. Redmond and other Nationalist leaders.

ANOTHER NEW PLAN.

Southern Pacific Will Control Cromwell Line from New Orleans.

New York, Aug. 1.—Another change has been made by the Southern Pacific in its new plan for handling ocean traffic between New York, New Orleans would establish a direct service to Mexico. A short time ago announcement was made that the Southern Pacific, or Morgan line, would abandon New Orleans as a through port and which has been plying between New Galveston for all through traffic. It is now learned that the Cromwell line, distinct from the Morgan line, has been placed under the management of the Southern Pacific; the local agency and offices have been abolished and the three vessels of the line will hereafter sail from the Morgan line pier semi-weekly. Whether the Cromwell line will continue as a separate corporation or will be formally taken over by the Southern Pacific is unknown.

The Morgan line's arrangement for its through traffic will take effect at once with the sailing of El Norte for Galveston. At the same time the Comus will be dispatched from New Orleans.

BREAK DOWN HEADGATES.

Farmers Forcefully Turn Loose Water to Save Their Crops.

Denver, Aug. 1.—Superintendent of Irrigation Armstrong has just received a report from Commissioner Banning of Water district No. 2 that 20 farmers, fully armed, marched to the headgates of the Fulton ditch, and breaking down the headgate allowed an immense amount of water to flow into the ditch, thus saving their crops.

When the gatekeeper tried to interfere with them, they threatened him with death.

Commissioner Banning reports he was unable to learn the names of a single person engaged in the attack.

The headgate of the Fulton ditch is ten miles north of Denver on the Platte above Henderson.

Another Case of Plague.

Austin, Aug. 1.—State Health Officer Tabor has been advised by Surgeon General Wyman of another case of bubonic plague at San Francisco, which resulted fatally. He also advised of one fatal case of yellow fever at Elbera, Cuba. Also that yellow fever is raging in the southern part of Mexico. Rigid steps will be taken by Dr. Tabor to keep the disease out of Texas.

Six New Instructors.

Austin, Aug. 1.—President Houston of the Agricultural and Mechanical college has returned from the north and east where he visited the principal institutions. He says he will have about six new instructors in the college this year from some of the best institutions of the country.

The King Improves.

Cowes, Aug. 1.—The king continues to improve. The royal yacht left for a cruise to the eastward. His majesty sat late on the deck Thursday evening enjoying the minstrel performance given by the yacht's crew. The prince and princess of Wales have started for London.

Quiet at Shenandoah.

Shenandoah, Pa., Aug. 1.—A more quiet town than Shenandoah it would be difficult to imagine. Peace reigns everywhere. The only thing now attracting attention in this vicinity is the camps of troops who have settled down for a period of enjoyable camp life.

Emperor William of Germany
and our own Wm. J. Bryan are
agreed that J. P. Morgan is a dan-
gerous man with his combinations
and schemes. Both argue from
the standpoint that the trusts are
organized to fleece all the poor peo-
ple who are not in the trusts.
Morgan claims to believe that there
are economies that can be effected
by organization which will enable
the combines to make money
and at the same time benefit the
people by cheapening products.

The republican State executive
committee, in session at Waco yes-
terday, decided to make a show of
fight for some of the elective offices
in Texas, in addition to their he-
roic struggle among themselves for
the general government pie. A res-
olution was passed favoring the
nomination of a full state ticket,
candidates for congress, and full
county tickets in as many coun-
ties as as practicable.

of strengthening his faculty and
filling certain chairs which

THE JEWETT REUNION

Of Ex-Confederate Veterans—Well En-
tertained by Jewett's Citizens—
Norman G. Kittrell Speaks.

Jewett, Tex., July 23.—Today
was the opening of the reunion of
U. C. V., R. S. Gould camp. Early
this morning the usual adjuncts to
such gatherings were in place and
ready for business.

The first item on the program
was the business meeting this af-
ternoon at 2 o'clock, at which the
names of the veterans were taken
and badges issued, after which the
D. C. Carrington camp of sors of
U. C. V., did likewise.

After the business meeting, mu-
sic and recitations were rendered
by the young people of Jewett.
The music is being furnished by
the Jewett band which is made up
altogether of home talent, and we
must say that the boys and Prof.
Lorraine deserve much credit for
their great success.

Jewett also has a dramatic com-
pany that deserves reward, in so
much that they are first-class ama-
teurs, not to be surpassed by any
in the state. They have a stage
erected and will play each night.
Tonight they will present "The
Little Brown Jug."

THURSDAY, JULY 24.

The morning dawned brightly,
with the prospects that there would
not even be a cloud to cast a shad-
ow over the occasion, still about 1
o'clock a nice shower fell, which
was not objectionable as the dust
had become very bad, and the rain
was sufficient to settle it. After a
short while the sky was again
clear, and the pleasures went on
without a hitch.

At 9:30 a. m. the procession
formed at the corner of Keeton,
Stell & Co's. and marched to the
grounds. At the head of the pro-
cession was the band; next the
sons of U. C. V., then the old ex-
confederates and lastly the dense
throng of visitors.

The address of welcome was de-
livered at 10 o'clock by Ed. L.
Evans, one of Jewett's most suc-
cessful business men.

The response for the old sol-
diers by Nat S. Johnson, of Buf-
falo, was framed very appropri-
ately and delivered by one for whom
we predict a grand future. After
the response Judge Norman G. Kit-
trell was introduced and held the
crowd spell bound for some time,

excepting when he would make
some remark or witticism that
would touch the old ex-confeder-
ates, and then you might as well
try to run water up hill as to keep
them quiet.

At 2 p. m. there was a meeting
of the Sons at which Attorney J.
M. Chatham, of Centreville, ren-
dered an oration which was equal
to anything of the occasion. After
which the young people delivered
a number of recitations and songs.

At night the dramatic company
played "The Little Heroine," and
the talent deserve much praise for
the rendition, especially the comic
parts.

FREIDAY, JULY 25.

Early this morning there began
to fall a slow rain, which has made
the last day of the reunion very
much of a flash, which will not
materially hurt the visitors, but
will save their pockets from being
emptied by the schemers. For we
know of some visiting ex-Confed-
erates who say that Jewett's people
are somewhat selfish. Keeling.

MICHIGAN DEMOCRATS.

They Nominate State Officers at Their
Convention at Detroit.

Detroit, August 1.—Michigan Dem-
ocrats at their state convention here
nominated the following ticket:

Governor—George H. Durand.
Lieutenant governor—John F. B-
ble.

Secretary of state—John Donovan
Treasurer—W. F. Davidson.
Auditor general—D. A. Hammond.
Attorney general—Wm. F. Knight.
Superintendent of public instruc-
tion—Prof. Woodbridge M. Ferris.
Commissioner of land office—C. F.
Watson.

The platform is devoted almost en-
tirely to state issues, the only men-
tion of national issues being an en-
dorsement of the election of United
States senators directly by the peo-
ple.

Judge Durand, who was nominated
for governor, filled a vacancy on the
supreme bench of the state during
the year 1892. He is generally cred-
ited with being a gold democrat at
heart, though not a bolter in 1896.
He was nominated on the fourth bal-
lot.

Texas Confederates Elect Officers.

Dallas, Aug. 1.—At the annual re-
union of the ex-Confederates of Texas,
which came to an end here Thursday,
the following officers were elected:

Major general—K. M. Van Zandt of
Fort Worth.

First brigadier—A. T. Gerard of
Huntsville.

Second brigadier—T. J. Largin of San
Antonio.

Third brigadier—Felix Robertson of
Waco.

Fourth brigadier—R. M. Henderson of
Sulphur Springs.

Fifth brigadier—M. D. Sellers of De-
catur.

Spirited and protracted debate fol-
lowed the introduction of a report by
the special committee appointed to
consider and submit rules for "the bet-
ter government of the Confederate
home at Austin." By unanimous con-
sent Capt. King, the superintendent of
the home, was permitted to make a
speech. After he had spoken the re-
port, with the exception of that clause
which recommends that the superin-
tendent be "a thoroughly qualified sur-
geon and physician," was adopted.
The veterans chose Sherman as the
place for holding the reunion next year.

Prisoner Fished Out.

Palestine, Tex., Aug. 1.—Constable
Conrad Perry Thursday arrested a ne-
gro under very peculiar conditions.
He was notified that a negro was beat-
ing a colored woman in the west part
of the city and hastened to the place.
The negro ran and the officer fired
a couple of shots at him, but it only
served to quicken his speed. The of-
ficer lost sight of his man, but fol-
lowed the trail. He came to a large
pond of water and looking over it
spied his man, all down under the
water except his nose. The officer
fished the negro out and landed him
in jail.

Puzzling Point Over School Bonds.

Austin, Tex., Aug. 1.—An interest-
ing question has arisen in the state board
of education as to whether or not the
board can sell bonds previously pur-
chased for the school fund. Some
parties have offered a handsome pre-
mium for an issue of bonds held by
the school fund. It is understood that
the attorney general has written an
opinion advising the board that it
has the power to dispose of the bonds.
The sale as yet has not been made.

Deficiency Grows.

Austin, Aug. 1.—The witness fees
deficiency continues to grow and
Thursday the total amount of the de-
ficiency certificates issued is \$19,838.75.
The present appropriation year has
but one more month to run, expiring
Aug. 31, and it is expected that by
that time the deficiency will have
reached \$28,000 or possibly \$30,000. The
examining fees appropriation has long
since been exhausted and the total de-
ficiency to date is \$17,146.55, and the
total will be not less than \$20,000.

Excessive Land Holders Warned.

South McAlester, I. T., August 1.—
United States District Attorney Wil-
kins has issued a public letter warn-
ing every Indian landholder that pro-
secutions will result if there are any
violations of the clause in the Indian
appropriation bill against excessive
holdings, which that bill fixes at 320
acres for each Indian and a like
amount for each member of his fam-
ily. Each offense is punishable with
a fine of \$100 and each day is deemed
a separate offense.

To Keep Tradition Alive.

New York, Aug. 1.—Several Hunga-
rian business men, sent by that nation
will visit this city in the latter part
of August and will be entertained by
the Hungarians in New York. The ob-
ject of this mission is said to be to re-
mind Hungarians here of the battles
of the mother country in behalf of
liberty and to remind Hungarians they
ever should remain true to the tradi-
tion of their native land.

Refused to Vote More Bonds.

San Antonio, Tex., Aug. 1.—At an
election held Thursday on the proposi-
tion submitted to the taxpayers by the
city council to issue \$400,000 improve-
ment bonds for the purpose of extend-
ing the sewer system, paving addi-
tional streets and building additional
schoolhouses, the proposition was de-
feated by 581 majority. The negro and
German taxpayers, as a rule, voted
against it, and it is their vote that
killed the measure.

Prominent Mining Engineer Dead.

Monterey, Mex., Aug. 1.—Captain R.
L. Davies, a prominent mining en-
gineer in Mexico, was found dead in
the Diente canon 30 miles from Mon-
terey. The supposition is that he fell
from the top of a cliff while at work
examining some prospects. Captain
Davies had been missing a week and
friends started a search for him, re-
sulting in the finding of his decom-
posed remains.

BRAZOS FALLING RAPIDLY.

Was in Banks at Some Places Last Night.

Reports from all points on the Brazos river late yesterday afternoon showed that the water is receding rapidly.

At Pitts Bridge it had run down four feet and was within banks in places. At Parker's lower store a fall of three feet was reported by R. H. Grant, who also spoke quite hopefully of the cotton, which he said was standing the flood well. At T. R. Batte's place in the lower bottom a fall of eight inches was reported by Mr. Mays, who also said the water was running down rapidly. The question is now one of the amount of damage done by the flood. Some believe that the cotton is practically ruined, while others believe it may make a part of a crop. A very few days will tell the tale after the water gets off the fields.

WELLBORN.

Wellborn, Texas, July 28.—We have had plenty of rain the past week, which is causing the river to overflow. We hope it won't ruin the crops.

THE FLOOD SUBSIDING

All Streams Falling and the Worst Seems Over.

RESUMING TRAFFIC.

Railroads Are Repairing Damages and Regular Schedules Will Be on in a Short Time—No Lives Were Lost at Quinlan.

Dallas, Aug. 1.—Rains have ceased, rivers are rapidly falling and railroad traffic is being resumed throughout the flooded districts of the state.

The damage to railroads will reach an enormous sum, counties have lost heavily on account of the destruction on bridges, the cotton and corn crops in low lands seriously damaged, several lives lost and many heads of stock drowned will bring the total damage of floods in the state near the million dollar mark.

The latest report from Quinlan is that no lives were lost in the flood Tuesday night, although several people had to stay in treetops and on houses until daylight on account of the rise in the Sabine river. One family is reported to have escaped the flood by knocking a hole in the roof and going out through the top of the house. The damage to stock and property will be great. The water was still over the Midland railroad track, and it will be several days before trains can go through on that road.

Messages from Mumford are to the effect that the water was still doing damage to the crops, being higher than at any time during the rains. On account of the high water the train to Hearne and Brazos Valley returned to Hearne without going to Stone City. Reliable parties from the upper bottom say that the situation there is much improved and the waters are fast receding.

The Brazos river at Bryan latest reports say is still falling slowly. Accurate measurements showed the water to be one foot higher than the 1900 rise and three feet one inch below the high water mark of 1899 at Pitts bridge there.

Reports of damage from the deluge continue to come in from Rockwall. Nearly all the county bridges are either washed away or badly damaged. Some of the creeks became raging rivers.

The Flood Shifted.

Dallas, Aug. 1.—The flood had shifted to eastern Texas, where small tributaries are causing the Saline river to go on the rampage.

At Kildare, Tex., the Pacific tracks are washed out and water is high. A large crew of workmen are on the ground and little trouble expected. There is still some trouble on Texas Midland east of Dallas, the Pecos valley west, and on the Aransas Pass road in the southwest, but other roads are running irregularly.

Situation at Gonzales.

Gonzales, Tex., Aug. 1.—There is a big overflow of the San Marcos and Guadalupe rivers at this place. All the lowlands are covered with water. From Slayden a phone message stated that the river only lacked two feet of being as high as in 1900. The water is all over the bottom and some corn will be washed away. The Lockhart train was water bound Wednesday, the water being over the Plum Creek bridge. The Yoakum freight backed to Gonzales and received passengers, express and mail Thursday.

Farmers Heavy Losers.

Lyons, Tex., Aug. 1.—The Brazos bottom is all under water from J. W. Dallas' place to the mouth of the Tegu, in this county. Crops are consequently a total loss, but the farmers with their tenants have moved out to the hills, hence saved their stock. Boll weevils and worms are playing havoc with the cotton on uplands. Merchants have quit advancing, necessitating much destitution.

Washouts in Arkansas.

Memphis, August 1.—A Scimitar special from Camden, Ark., reports that no Cotton Belt trains have passed there since early Thursday night owing to a washout on the main line at that point. The dispatch also says that five miles of the Eldorado branch of the Iron Mountain is under water eight miles north of Camden and no trains can pass.

Storm in Indiana.

London, Ind., Aug. 1.—This section was visited by a heavy rain and wind storm Thursday evening. Charles Sunderling, 20 years of age, was killed by lightning. A farmer boy was electrocuted by leaning against a wire fence. Hundreds of acres of growing crops were damaged, barns and houses unroofed and considerable live stock destroyed.

About Peru the country is flooded. A bridge on the Lake Erie and Western railroad was washed out. William Jeffries was paralyzed by lightning and three other persons were hurt.

Woman Killed in Death.

Ennis, Tex., Aug. 1.—News has been received here that Mrs. J. C. Dodd, six miles north of Ennis, was burned to death Thursday evening. She was kindling a wash fire with oil from a large can.

Hanged for Assault.

Hattiesburg, Miss., Aug. 1.—Will Dantzer, a young negro, was hanged privately in the courthouse yard here for assault on Mrs. Ed Gardner, a respectable white woman, June 5.

NO FURTHER RIOTING

Presence of Troops Restore Quiet in
Shenandoah Region.

NO MARTIAL LAW.

City and County Officers Will Remain
in Control Unless There is More
Rioting—Another Injunction
Against the Miners.

Shenandoah, Aug. 1.—Twelve hun-
dred state troops are encamped on a
hill overlooking Shenandoah. Down in
the town where rioters and policemen
fought the bloody battle all is quiet,
and the indications are that so long as
the militia remains the peace of the
community will not again be broken.
The riot which caused the troops to be
sent here came like a flash and was
over almost as quickly as it had start-
ed, and since then there has not been
a single case of violence reported. The
tens of thousands of idle men and boys
in this vicinity, who had been gather-
ing in large numbers and marching
from place to place, have not repeated
their demonstrations, and the authori-
ties consequently have little or nothing
to do.

Contrary to popular belief, Shenan-
doah is not under martial law. The
local authorities and the sheriff of the
county have not relinquished control
of the town or county, and they remain
in as complete control of their respec-
tive affairs as they did before the
troops reached here. The soldiers are
merely camped on the outside of the
town, and so long as the situation re-
mains as it is at present there is no
likelihood that the regimental compa-
nies will be scattered through the
mining towns of Schuylkill county.

ANOTHER INJUNCTION.

Mine Workers Officials Restrained from
Interfering With Coal Companies.

Charleston, W. Va., Aug. 1.—Presi-
dent Mitchell has been enjoined. A
bill in equity was filed in the federal
court here by the Chesapeake and Ohio
Coal company, a New Jersey corpora-
tion which has its principal offices in
the city of New York, in which fifty
coal companies in the New river fields
and the Chesapeake and Ohio railway
company are interested. G. W. Purcell,
W. B. Wilson, John Mitchell, J. W. Car-
roll, J. A. Richards and about 150 mem-
bers of the United Mine Workers of
America are made defendants.

The bill sets up that the complain-
ant is engaged in selling coal and coke
and has a contract for the output of the
collieries made a party defendant and a
contract with the defendant railroad
company for the shipment of coal so
purchased; that the coal is resold by
complainant under contracts to manu-
facturing concerns, and to the United
States government for fuel on naval
vessels; that because of a strike which
has existed since June 7 last, the coal
companies have failed to live up to the
contracts for deliveries of coal; that
there exists a secret organization
known as the United Mine Workers of
America, of which John Mitchell is
president and W. B. Wilson is secre-
tary under the orders of which the
men employed in the mines who are
members of this organization have quit
work and refuse to do their duties,
and in addition to this assemble in
marches and meetings and so conduct
themselves as to intimidate employees
of the various companies, thus prevent-
ing them going to the work which they
desire to perform; and the said de-
fendants occupy the tenement houses
of the various companies and fail and
refuse to vacate them at the request of
the coal companies.

Judge Keller issued a temporary re-
straining order against all of those
named in the order and all others as-
sociating or acting with them from in
any way interfering with the manage-
ment, operation or conduct of said
mines by the owners of those operat-
ing them, either by menace, threats
or any character of intimidation.

Leaving the Stricken Town.

Santa Maria, Cal., Aug. 1.—Another
earthquake shock was felt here at 7:25
o'clock Thursday night. No damage
was done.

Two families have arrived here from
Los Alamos, and reported a reign of
terror holds sway there, and that more
families are preparing to leave.

Another Shock at Los Alamo.

Santa Barbara, Cal., Aug. 1.—Another
severe earthquake shock was felt at
Los Alamos at 7:30 o'clock Thursday
night. It was almost as heavy as that
of early Thursday morning.

A slight shock was felt in this city
at the same time.

from this place, was assassinated
between daylight and sunrise Thurs-
day. Two parties suspected were
jailed.

NEWS IN BRIEF.

Thomas O'Dell was killed by light-
ning while he was sitting in his door-
yard, four miles south of Crab Or-
chard, Mo.

arkana, Ark., of killing fish in Clear
lake with dynamite and fined \$50.

DOES OWN STOCK.

Ambassador Clayton Says He Has One
Hundred Shares in Mexican Mine.

Washington, Aug. 1.—Ambassador
Clayton has telegraphed the state de-
partment that a misunderstanding ap-
pears to exist as indicated by the press
publications, touching the exact nature
of his connection with the El Carmen
Mining company, which was referred
to in the senate debates last session.

The ambassador states that he does
own 100 shares of mining stock in this
company and that it is registered in
his name. He accounts for the posses-
sion by pointing to his statement made
to the department last March and asks
that this be given publicity now.

According to the statement Mr. Clay-
ton became trustee for an aged lady, a
relative and an American citizen. She
had inherited a considerable amount of
El Carmen Mining company stock, and
having no one to look after her inter-
ests in Mexico, she induced Mr. Clay-
ton to represent her. But he could not
become a director of the company,
which was necessary for him to look
after her property, unless he owed a
block of stock, and this he acquired to
the extent of 100 shares, the value of
which is small. At the same time he
notified his relative that by consent-
ing to act as a director in the company
he placed himself in a position where
he could not serve her in a diplomatic
capacity should the company become
involved in that way.

Actress Prevents a Tragedy.

Guthrie, Okla., August 1.—Miss
Bernice Montgomery, a Chicago ac-
tress who is spending her summer
here, has suddenly become a heroine
by preventing serious trouble near
here while driving in the country
with two young ladies of Guthrie.
They came upon two farmers desper-
ately quarreling, one of whom had as-
saulted the other, who in turn drew a
revolver and threatened to kill his as-
sailant. Miss Montgomery quickly
leaped from the carriage, grabbed the
revolver and compelled its owner to
get in his wagon and drive on. The
other fellow was determined on a
fight, but she was again equal to the
occasion by taking his blacksnake
whip from the wagon and threaten-
ing to horsewhip him within two
minutes unless he also drove toward
home. Her argument was sufficient,
the farmer obeying reluctantly.

Tracy Again Heard From.

Ellensburg, Wash., August 1.—From
10 o'clock Wednesday morning until
10 o'clock at night Harry Tracy was
an unwelcome guest at the ranch of
W. A. Sanders and S. J. McEldowney,
six miles from Wenatchee, on the Col-
umbia river. Tracy came out of the
Cascades riding one horse, using an-
other as a pack horse and leading a
third in reserve. He carried a win-
chester and two revolvers. He took
dinner and supper at the ranch, hav-
ing the men well covered with his
rifle.

Kitchener Presented a Sword.

London, August 1.—Amid tremen-
dous enthusiasm, Lord Kitchener was
presented Thursday night with a
sword of honor, the gift of Cape
Town. Sir Joseph C. Dimsdale, lord
mayor of London, made the presen-
tation speech in the course of a South
African dinner which was attended
by many notable persons. When the
enthusiasm had sufficiently subsided
for Lord Kitchener to make himself
heard, he modestly returned thanks
for the gift and expressed the confi-
dent hope that in South Africa at
any rate, the sword would not again
be drawn from its scabbard.

Desertion on the Mayflower.

Oyster Bay, N. Y., Aug. 1.—Serious
trouble was developed on the May-
flower, the president's official war-
yacht. During the past few days nine
desertions have occurred among the
crew. A number of the crew said
yesterday that not less than 70 men
on board of the ship were awaiting a
favorable opportunity after payday to
take "French leave" of the vessel. Pri-
marily the trouble seems to revolve
around the executive officer of the
ship, Lieutenant W. W. Phelps, who,
the men assert, is overbearing and
tyrannical.

A Big Rice Farm.

Jennings, La., Aug. 1.—Several gen-
tlemen of this place have just closed
a deal for nearly 20,000 acres of land
in Matagorda county, Texas, bordering
on Trespalacios bay, with eight miles
of coast line. All of this vast tract
will be converted into a rice farm, and
railroads and canals will be built at
once by the company. This is the
largest company organized for this
purpose in recent times.

Two Mines Resume.

Scranton, Pa., Aug. 1.—The Oxford
colliery of the People's Coal company
and the Cayuga Colliery company of
the Delaware, Lackawanna and West-
ern railroad have resumed operations.
The Oxford had between 120 and 130
men under ground. The Cayuga had
60 miners, all of them old employees.
Crowds surrounded both collieries,
but the city police and sheriff's depu-
ties prevented any disorder.

Explosion in a Mine.

Sydney, N. S. W., Aug. 1.—An explo-
sion resulting in heavy loss of life oc-
curred at the Mount Kimbla colliery
at Wollongong, a port forty miles from
here. Twenty-seven bodies have been
recovered. The buildings at the mouth
of the pit were wrecked. One hundred
and forty-nine miners were rescued,
but a hundred were still entombed. It
is feared their release is hopeless. A
portion of the colliery is on fire.

Hammond Plant Sold.

Chicago, Aug. 1.—The sale of the
controlling interest of the G. H. Ham-
mond company and the Hammond
Packing company to Armour & Co.,
or individual members of the Armour
firm, is now practically completed.
The price for the property is not
known, but the amount involved is
close to \$5,000,000.
